THE OLDEST MOST SUCCESSFUL LEGAL GROUP IN THE WORLD continues to monitor the Judiciary. Cy Gape, one of our founders, would say, "Whenever I think I heard the worst injustice in the courts, there would soon be one to top it."

We recently court-watched a Child Protective Service (CPS) prosecution of a young mother because she was "delusional." That is, she brought her 5-year old child to the doctor 4 times and took pictures of his bruises allegedly made by his father (a lawyer). During the 10-month trial, the son is allowed to see his mother for 1 hour a week at Educational Assistance Corp. (EAC) at a cost of \$20/visit.

Our written (FOIA) request for general information about CPS has been ignored by Gregory Blass, Commissioner of The Dept. of Social Services, Suffolk County.

Nancy Schaefer, State Senator from Georgia, said recently, "Child Protective Services" is one of the most evil, corrupt branches of government in America today!!! (They get Federal grants for each child under their jurisdiction). How many of our tax dollars goes to support this agency?

New York's Chief Administrative Judge, Ann Pfau, will be replaced by Judge A. Gail Prudenti, Appellate Div.-2nd Dept. Judge Pfau supervised \$170M in budget cuts and headed electronic filing, e-courts.com. We always had great respect for Judge Pfau and wish Judge Prudenti the best.

.....

We thank thank the many retired judges and lawyers who do pro bono work for our members who desperately need help. Judge Pfau said, "Citizens have a fundamental constitutional right to go to the courts." If you would like to offer your expertise, please call or e-mail. We will keep your name confidential.

We have been working for years to remove lawyers from public office outside the Judiciary Branch of government, on the grounds that their presence in the other two branches constitutes an illegal breach of the Constitution's implicit prohibition against any single "same hands" group or faction controlling all government.

Notwithstanding both the moral, and legal righteousness of that argument, the power of the lawyers in and out of government in this country is such that they have been able to prevail as a plurality or majority of most government entities, be it state or federal. Leaders in the movement have long recognized that major change would only come when the Nation felt sufficient pain.

That time has come. The Nation is suffering from an inability to provide its citizens with affordable health care. The reason for which can be directly traced to the illegal control by lawyers of all government. The facts are as follows: The U.S. spends roughly 16% of GDP (Gross Domestic Product) on healthcare and still has some 30M people uninsured. The next highest cost nations are Canada and Germany. They spend some 9%-10% of their GDP on health care and they insure 100% of their citizens. Thus the USA spends 60%-70% more than the next 2 highest countries in the world and only insures some 90% of its citizens versus 100% for the others.

Without question the most important reasons for this difference are the cost of medical malpractice and the concurrent need for US health care providers to practice "defensive medicine". Defensive medicine is defined as practicing medicine with the main concern of avoiding lawsuits, not the best taking care of the patients. Thus obstetricians will call for expensive caesarean births instead of natural birth procedures to avoid possible lawsuits. Doctors will call for MRI's for simple headaches for the same reasons. And that is just the tip of the iceberg. Tort reform is essential to bring health care costs down to reasonable levels and tort reform is all but impossible with lawyers in control of all government.

Texas appears to be the first state that has moved in the right direction on this matter. However, until the movement goes national, even Texas doctors may fear changing their procedures. That is because they may fear being sued anyway. Highlighting this area of the egregious damage that the illegal control of all government by lawyers, should be the best approach to removing them permanently from public office outside the judiciary.

Nancy Pelosi (the Poster Child for the poor), is a member of the 1% club (\$40M millionaires). She supports the occupy Wall Street mobs. Her brother-in-law is an executive with a California company receiving \$700M in loan guarantees under the Stimulus Program and her 747 cost to taxpayers is \$28,000/flight (60 minutes).

The Federal Courthouse, "Alfonse D'Amato, U.S. Courthouse", 100 Federal Plaza, Central Islip, is the 3rd largest in the U.S. and the largest building on Long Island. It is a 12-story building, 870,000 sq. ft., with 25 courtrooms for 24 judges, costing \$220M in 2000. It costs \$2M/yr. to run and is finally fully occupied by various federal agencies. (Wikipedia).

For every child placed in foster care, the states receive between \$4,000-\$6,000/mo. Since the majority of the money does not go to the replacement parent, there is a financial incentive for CPS to place as many children as possible in Parent Protection Plans. The more children who are to be away from their parents, the more money the CPS Agencies, social workers, family law attorneys and states receive). (B.eden@verizon.net)

We are not attorneys. We encourage people to represent themselves. If you want someone to represent you, you'll need to hire an attorney. If you want to do it yourself, network with our members. We believe representing yourself is the only way to gain and keep control over your life and your legal problems. You don't need legal training to use the courts or manage your legal affairs. You have a constitutional right to represent yourself without an attorney (Jurisdictionary.com).

Justice Delayed Is Justice Denied: On or about May 11, Maria had filed an appellate court motion for preference on her appeal's case, on the urgent grounds that, while the court deliberates on Maria's appeal against the father, David Grossman, Esq., the three disabled infant children continue to suffer from David Grossman's refusal to pay for necessary and urgent medical needs. Six months have now passed, and the appellate court has yet to even acknowledge no less address Maria's motion for emergency preference on her appeal. Meanwhile, David Grossman, Esq., continues to enjoy extravagant vacations with his new girlfriend. (Courtwatchers). Please accept with no obligation, implied or explicit, my best wishes for an environmentally conscious, socially responsible, low-stress, non-addictive, gender-neutral celebration of the winter solstice holiday, practiced within the most enjoyable traditions of the religious persuasion of your choice or secular practices of your choice, with respect for the religious/secular persuasion and/or traditions of others, or their choice not to practice religious or secular traditions at all.
