**THE OLDEST MOST SUCCESSFUL LEGAL GROUP IN THE WORLD** cannot fix all the dysfunctional courts in this country, but we can try to improve one at a time by exposing the ignorance, ineptness and partisanship that exists in them.

Starting with Suffolk County Matrimonial Court headed by Judge Marion McNulty, she should be psychologically tested to prove her honesty and integrity similar to the police and Home Depot employees.

We find it hard to understand how her associate Judge Jerry Garguilo jails and orders an ALR court watcher to pay some \$75,000 to his ex-wife for legal costs, while she is sitting in her new Florida home yet reduces retroactively child support for a successful lawyer earning \$500,000+ whose invalid daughter is confined to a wheel chair. None of the 6 judges involved ever awarded \$1 in legal costs for her 5 year battle to get a new chair, diapers, food, rent, lift, clothes, etc. This appears to be the height of racism and cronyism.

We find it hard to believe Family Court continues to **delay contempt charges** when the father of the invalid child is over \$25,000 in arrears and enjoys Florida vacations with his latest paramour, Alexa Greves, and hires criminal lawyers James O'Rourke, Esq. and James D'angelo, Esq. These lawyers also defended his driving under the influence with a controlled substance in the car. Of course, it's not his fault that he has run up \$20 million debt from collateralized legal settlements, divorced his 2<sup>nd</sup> wife and separated from his partnership with some 5 firms.

Lawyers are the only persons in whom ignorance of the law is not punished (Jeremy Bertham) Lawyers are the only profession where the more there are, the more we need! (Robert Lucky) There are nearly 1.5 million lawyers in the U.S. There are only 900,000 Doctors in the U.S..

"Bloated with Bureaucracy". Over the past 20 years student numbers increased 17% whereas administrators and other non-teaching staff rose 46% (by Dr. Benjamin Scafidi, The Friedman Foundation)

The national debt exceeds gross domestic production. Every dollar our government spends 40% is borrowed. This year the federal budget will run more than a \$1.5 trillion deficit to \$16.5 trillion. That's \$50,000 plus for every man, woman and child.

All ideas are in the brain just as all statues are in the marble. (Carlo Dossi)

**ASSERT YOUR RIGHTS**

Our Courts have failed to meet their responsibility to adjudicate law. Instead, they abuse their authority at the expense of the people. 1. Remind all judges of their oath to uphold the constitution of the United States and the state constitution. Hold them to the contract. 2. Remind the court your not an attorney, ask the court to conduct its business in English according to Websters Dictionary not Black's Law Dictionary. 3. Ask for wide latitude because of your inexperience with the law, not to be held to the same high standards as an attorney. 4. Ask for all your rights under God and the Declaration of Independence. Further ask for all of the limitations imposed upon government through the constitution. 5. Ask the court to preserve all your rights, decline any presumptions. 6. Request all rights with all infringements denied. 7. Ask the court to supply you with any law or case law which supports your position. 8. Ask the court and the judge to stop all attempts of deception and supply any law, which opposes the attempt of deception. 9. Ask the court not to use Judicial Discretion. 10. Ask that findings of fact and rulings of law accompany all decision of the court. 11. Ask for reviews of all transcripts, avoid all off the record conferences. 12. Ask all parties for waivers. 13. Bring the American flag to court. ( A flag without the gold fringe).

We regret the loss of our good friends: Janet Tomaino, Sonny's wife, and Bob Rooney, whose ex-wife and her lawyer Rachel Weisman, Esq. who tried their best to alienate their children.

If you see a judge text messaging during a trial, call ALR immediately so that we might report them to the proper authorities.

The bank that holds Long Island Rep. Steve Israel's mortgage has approved a special deal allowing him to wiggle out of nearly \$100,000 owed on his Dix Hills home while he unloads the property (NY Post, 10/8/12)

"It's time that we, as a city, state, country, have an assault weapons ban", Mayor Rahm Emanuel said back in Chicago in 1994. With 500 plus murders/year perhaps he should be calling for a concealed carry state. (BD 1/3/13)

Huntington Town closed for Lincolns Birthday, February 12 and for all Presidents Day, February 18th while running a \$8 million shortfall.

Nonlawyer James Madison's Constitution had one principal goal: to create a government that had sufficient power to govern, but insufficient power to oppress. To do so, he neutralized the first four known sources of tyranny, which he identified as the monarchy, the aristocracy, the military and the church. Madison then addressed the last source of tyranny, which he defined as: "a same-hands group or faction that had a common interest adverse to the Nation as a whole" Lawyers and every other professional group fit this definition. To protect the state against this "same-hands" tyranny, Madison implicitly instituted the separation-of-power principle in the U. S. Constitution. This nation now suffers from what Madison, Montesquieu, Thomas Jefferson and Alexander Hamilton called, "the very definition of tyranny." That tyranny arises when a single same-hand group makes the law, enforces the law and interprets the law. That tyranny, whether or not perceived, is at the heart of most of the nation's problems in the areas of crime, education, health, welfare, frivolous lawsuits, devastating divorces and countless other problems. That tyranny has undermined the Constitution and fundamentally flawed all government. It has resulted in enormous harm to people, both in dollars and emotional distress. Historically tyrants neither acknowledge their tyranny nor voluntarily give up their power. That explains why the members of the legal profession are in a state of denial. That is why the people must correct the situation by voting all lawyers out of office outside the judicial branch. (Ronald Bibace www.constitutionalguardian.com)
