pines for reinstatement of former Chief Judge Judith Kay. The current politically appointed Chief Judge Lippman doesn't seem to care to improve the inept legal system in N.Y.S. He doesn't even bother to reply to our phone calls/letters (June 09 mailed to all NY legislators and judges) asking for 1. Improved procedures in divorce discovery to avoid delays 2. Enforced penalties for perjury with respect to finances including punishments for the attorneys. Sooner or later the public will get fed up with the lack of accountability in the courts. (See- Conservative Society for Action www.csa-1776.org Once again the misguided District Attorney has nothing better to do with taxpayer's money than to have ADA's investigate ALR and its members to see if we are practicing law without a license. Meanwhile, substance abusing attorneys and incompetent judges continue to litigate and abuse our citizens. How can we be practicing law when we don't cheat, steal and lie?

Does anyone have any information on? (We will keep your name confidential.)

Court Watchers Update: 1. Ex-husband David Grossman Esq. and his criminal lawyer James O'Rourke, a former partner of District Attorney Spota, continue to embarrass the profession with their court antics while Grossman's three handicapped children are in desperate need of chairs, lifts, and supplies. Grossman wants his ex-wife to get a job during the few hours the kids are in public care so he doesn't have to pay back child support. He spent thousands to reverse the family court's orders to pay an extra \$1000/mth child support. Then, he immediately took another vacation on a secret island with the money he saved on the downward modification by Judge Buto. By the way, Grossman makes his money suing nursing homes that don't take proper care of patients. 2. Some judges shouldn't be, i.e., Judge McNulty(S). When Mr. & Mrs. Galen stipulated an agreement regarding their children's visitation, McNulty ordered their butts into court to scold them, pretending she cared about the children. Yet, she ripped the Zagarino children out of L.I. schools and sent them 150 miles away to be with a stepmother and parent who care little for the children's welfare. The Zagarino children currently don't even have a stepmother. (Index # 018707-1997 S)

There are 700,000 physicians in America who cause 120,000 accidental deaths per year. There are 80,000,000 gun owners that cause 1500 accidental deaths. Are doctors 9000 times more dangerous than gun owners? (FBI statistic)

Pursuant to court rule, attorneys are required to certify court papers submitted that contain statements of fact and that they have no knowledge that the substance of the submission is false. Therefore, if you can prove your opponents knew of false statements then the attorney is also libel.

State Attorney General Andrew Como moved to throw out financial judgments against 100,000 people throughout N.Y.S., including 18,000 on L.I., because of "sewer service". (Newsday Robert Kessler 7/22/09, also see NY Times 4/4/99 Bruce Lambert)

Pres. Reagan said the most terrifying statement is: "I'm here to help you, I'm from the government". To protect families, Sen. Charles Schumer, who ignored warnings of the coming mortgage disaster, wants new eating fish warnings. (Various news) Politics is the second oldest profession. It bears resemblance to the first. (Ronald Reagan) Bernie Madoff, the guy who made \$50 billion disappear, is being investigated by the people who made \$750 billion disappear, Congress.

When Pres. Truman retired from office he only received \$13,500 a year from his army pension. Later, Congress granted him \$25,000/year. Today, politicians use the position to scam the public.

The budget should be balanced, the Treasury should be refilled, public debt should be reduced, the arrogance of officials tempered, and people must again learn to work instead of living on public assistance. (Cicero, 55 BC)

The family court is open to the public, including the media, with the exception of persons causing a disruption and persons objected to by one of the parties for compelling reasons. (Section 205.4)

N.Y.S. is the only state in the nation that does NOT allow no-fault divorce. The law instead insists that one spouse pin the blame on the other. (Daily News 4/1/09)

If you see a lawyer cheating on taxes report him on form 3949A . If you file form 211 then you may get a reward.

When a lawyer wins a case for a relative, the lawyer may forgo his fee and the relative then makes yearly gifts to the lawyer's family to avoid income tax. The lawyer may not be tax cheating, but to say he does not have income to avoid child support isn't ethical.

Only in America can you be 13 and have an abortion without telling your parent, but must have a written note from your parent why you missed school.

Most humans are not formally trained in twisting the truth, bending the rules, or distorting language and law to make money. Such practices are common for lawyers. (Jurisdictionary)
