Between 45 and 65% of all executive and legislative branches of government are *lawyers*. Yet, *we keep doing the same thing. They run our lives!* Lawyers who are members of a bar association are barred legally from running for public office in the executive and legislative branches of government. The Constitution prohibits them from running for any elected office that is not part of the Judicial Branch of Government. To protect us against same hands tyranny, James Madison implicitly instituted the separation of powers principle in the U.S. Constitution. Lawyers and judges have *ignored* the prohibition.

Taxpayers will spend some **9 billion dollars** filing in 2016. In 1955, the tax code was some 400,000 words. In 2016, it is **2.4 million words**. The compliance cost for estate and gift taxes alone is estimated at **20 billion dollars** while revenue from these laws are **20 million dollars**. (*Tax Foundation Report No. 512.*)

Recently, the American who made the most income last year, (some 1-1/2 billion dollars) suggested on CNBC, “We need more government for infra-structure schools and medicine.” (He says the IRS “works well” ,,,,) His 250 ft. boat flies a foreign flag and most of his income is tax-free offshore.

**Suffolk County Judge Caren Loguercio and Suffolk’s Child Protective Service seem to get delight in separating children from one or both parents. Child Protective Services is another corrupt government agency that gets more Federal money for each child under their jurisdiction. Don’t they know “Both Parents Lives Matter?”**

The problem with lawyer jokes is we hire them. When I was young, I was told anybody could become a lawyer and I’m beginning to believe it! I have come to the conclusion that litigation is too serious a matter to be left to a lawyer!
